## Outer wall air vent ALD built-in device

## Description

- Passive outer wall air vent for the supply of fresh air in exhaust air systems for controlled home ventilation
- Subsequent installation possible by means of round duct
- Comfort through integrated wind pressure protection with EPS housing, washable G2 filter (pollen filter optional), three star-shaped silencers and volume flow control screen
- The air volume can be adjusted as required using the volume flow screen
- Meets the requirements of DIBt, DIN 1946-6 and 18017-3
- Internal parts revisable

This ensures a user-independent ventilation according to DIN1946-6.
Order No. 039997

## Installation

The built-in device is inserted into the round duct 9/R 160 and installed with a slight gradient to the outside in the outer wall.
An electrical connection is not required, since the ALD is not motorised.

## Technical data
